Mukuru Promotion Centre (MPC) is a faith based, non-profit organization founded in 1985. The Centre has expanded to meet the needs of a growing population and operates multiple projects in education, health and social welfare. Through various partnerships, MPC has transformed the lives of thousands of people living in the Mukuru informal settlements.

Among these projects, Songa Mbele na Masomo Children's Centre is one of them which focuses on supporting children living with disabilities, and school drop-outs from the Mukuru slums.

**SERVING CHILDREN WITH
DISABILITIES IN MUKURU SLUMS,
NAIROBI.**

WHO WE ARE:

Songa Mbele Na Masomo Children Centre is a community based Centre, legally registered as a Community Based Organization (CBO) with the Ministry of Labour, Social Security and Services in the Republic of Kenya, and recognized by the National Council for Persons with Disabilities (NCPWD) in the Republic of Kenya.

The Centre serves children living with disabilities from Mukuru Slums, Nairobi Kenya. We also help children who have never been to school, or who dropped out of school, by giving them academic coaching and later integrating them to the mainstream schools.

Vision: To be the leading organization in enhancing provision of relevant skills and knowledge to children living with disabilities and vulnerable children, in Kenya.

Mission: To reduce illiteracy, dependency and improve health care among the children living with disabilities and the vulnerable children in Mukuru slums by providing academic coaching, therapy and day-care services.

OUR CORE VALUES

Our operations are driven by:

Service

Team work

Commitment

Value for children

Integrity & Accountability

KINDLY DONATE TODAY AND SUPPORT A CHILD LIVING WITH DISABILITIES FROM MUKURU SLUMS.

OUR GOAL:

The Centre's goal is to promote positive mind set and attitudes towards children living with disabilities, and create a second chance for those children who dropped out of school or delayed joining school.

The project focuses on programs and initiatives that aim at social inclusion and educational rights for children living with disabilities and the vulnerable children from Mukuru Slums in Nairobi. The purpose of the project is to enhance daily care, feeding, therapy, learning and participation of children with disabilities as they grow.

MAIN PROGRAMS SPECIAL UNIT:

This is the unit where we have children with special conditions, such as Autism, Cerebral Palsy, Hyperactive Disorder, Hearing Impairment, Convulsion Disorder, Epilepsy, Delayed Speech and Learning Difficulties.

We support them with basic education, day-care services, hygiene, therapy, medication and education. Our fulfillment is when the children improve so well in their social and learning skills and in their activities of Daily Living (ADLs) that they can make decisions on their own.

Some of the children from Special Unit.

COACHING UNIT:

Here we have those children who delayed joining school, or who dropped out of school. They are taken through education programs and gradually get integrated into mainstream institutions.

Through these support services offered at the Centre, we are able to reduce the stigma experienced by the parents/guardians as well as promote children's rights to education, affection, care and good health.

Coaching unit class in progress.

Programs Requirements:

- Food stuff – maize/wheat flour, dry food like green grams & beans, long-life milk, vegetable, dry-fish, sugar, cooking oil, etc.
